NEWSLETTER

Parliament Highlights

How does **Coal Gasification** make India's coal use cleaner & more sustainable & which sectors benefit the most?

- Coal Ministry is indigenizing UCG technology and collaborating globally. **21 mines are currently being auctioned** to produce Fertilizers, Ethanol, Methanol, and SNG.
- It will support key coal-dependent sectors such as **steel, cement, and chemicals**, while also enabling the production of fertilizers critical for the agriculture sector.

[Watch More!](#)

PARLIAMENT REPLIES

NEWSLETTER

Parliament Highlights

What steps are being taken to ensure efficient and sustainable utilisation of coal?

- India is pursuing a **twin strategy to optimise coal utilisation**. This includes the promotion of underground mining for reserves and the implementation of the **National Coal Gasification Mission** for deeper coal seams.
- In this context, a coal production target of **1.5 billion tonnes by FY 2029–30** has been set, aligned with India's long-term energy security & sustainability objectives.
